

Research Library

The Research Library consists of approximately 4,000 articles, books, research manuscripts, maps, cemetery and obituary records, and photocopies of historical documents and local directories. There are also oral histories and microfilm of early local newspapers. An indexed collection of over 25,000 indexed, copied historic photographs on local topics is available for research browsing or with permission a duplicate can be purchased.

The Research Library is open and available for use during normal Museum operating times. Research assistance is available, as is photocopying at 10¢ per standard page.
